

CONFERENCE AGENDA

DAY 1 - WEDNESDAY JUNE 3

12.00PM

MEETING RISING LAUNCH DEMAND AND ENSURING RAPID DELIVERY

12:00 - 12:50

A global leader in launch, the United States is witnessing an even greater increase in demand driven by the strengthening of national security strategies, the head-to-head with other space players, the delivery of scientific missions, the adoption of satellite constellations, and technological advancements. Yet, the risk is that this demand will soon surpass supply chain capacity. With some vehicles facing retirement and with SpaceX accounting for most national security and commercial launches, questions have arisen over the robustness of the current landscape.

Key Points:

- Building a resilient ecosystem to impede the fall of launch rates
- Meeting the strong demand for small lift launch services and focusing on market differentiation
- Maximising the use of current vehicles and lowering costs through reusability
- Government support and investment in launch systems
- Maintaining a world-class space launch infrastructure and preserving U.S. space superiority
- Infrastructure: protocols, upgrade, payload processing, and ground operations

MODERATOR

ROBERT KATZ
CEO
WORLD INNOVATION NETWORK

SPEAKERS

ASHER BEST
DIRECTOR, GLOBAL LAUNCH SERVICES
ROCKET LAB

THERESA QUITTO-DICKERSON
COMMERCIAL SPACE POLICY & INDUSTRY
STRATEGY LEAD
POLICY, ADVOCACY AND INTERNATIONAL
DIVISION, OFFICE OF SPACE COMMERCE

DAVID SMITH
CEO
MOJAVE AIR AND SPACE PORT

MIKE SAFYAN
VP OF LAUNCH & STRATEGIC INITIATIVES
PLANET

CONFERENCE AGENDA

DAY 2 - THURSDAY JUNE 4

1.30PM

SKILLS LAB - U.S. OFFICE OF SPACE COMMERCE HYPER-INTERACTIVE TOWN-HALL OPEN-FORUM

1:30-3:30

Organizer: World Innovation Network (WIN)**Location:** Room 201. From Hall A, take the escalator up to the first floor.**Attendance:** Seating will be allocated on a first-come, first-served basis, in order of arrival.

"We're from the government, and we're here to help." No, honestly. We really mean it. Fueled by the Presidential Executive Order on Space Superiority and accelerated by this month's historic SpaceX IPO, the largest ever in the galaxy, commercial space is shifting into ludicrous speed. The Office of Space Commerce lands here with one focused mission: to hyper-charge the growth, market dominance, and ultimate success of space companies in the U.S.

In this completely unscripted, high-octane town hall, you control the flow. This is your window to have your queries answered, meet the experts, and find the specific resources you need to scale. Bring your hardest questions, your biggest roadblocks, and your boldest solutions. We are breaking down bureaucratic barriers to help you:

- **Secure Critical Capital:** Connect with investment communities to unlock funding, propel start-ups, and turn visionary concepts into commercial reality.
- **Scale Globally:** Take U.S. innovation across borders and capture international markets.
- **Soft-Land in the U.S.:** Create seamless, accelerated entry points for our allied international partners to set up shop and thrive within the American space ecosystem.
- **Synergize Policy into Profit:** Translate national space superiority strategies into actionable commercial advantages.

This all-star, interactive panel features direct representation from:

- The U.S. Department of Commerce - U.S. Commercial Service
- The Office of Space Commerce
- The U.S. Space Force
- Industry Ecosystem Builder

This is not a lowly lecture. It is a limitless launchpad. Let's accelerate together!

SPEAKERS

ROBERT KATZ
CEO
WORLD INNOVATION NETWORK

ERIC KEMP
SR ENTERPRISE SW ARCHITECT & ISSM,
DIGITAL TRANSFORMATION OFFICE, SPACE
LAUNCH DELTA 30, WESTERN RANGE
VANDENBERG SPACE FORCE BASE

HEATHER WAGNER REED
FOUNDER AND CEO; CO-FOUNDER AND
DIRECTOR; PRODUCER
JUICE CONSULTING; SPACE WORKFORCE
INCUBATOR FOR TEXAS (SWIFT); SPACE
HOUSE @ SXSW

KEENTON CHIANG
COMMERCIAL OFFICER; U.S. COMMERCIAL
SERVICE
INLAND EMPIRE; INTERNATIONAL TRADE
ADMINISTRATION U.S. DEPARTMENT OF
COMMERCE

THERESA QUITTO-DICKERSON
