TIME **6:00 – 7:15 pm**

LOCATION **Sands Space History Center**

Groundbreaking Gretchen Green, MD Lands at Sands

Cells-to-Stars:

My Fantastic Voyage
from
Inner-Space
to
Outer-Space

In partnership with the World Innovation Network (WIN), join us for an inspiring presentation by Dr. Gretchen Green as she shares her lifelong journey of curiosity, discovery, and exploration. Bring the whole family for truly out-of-this-world motivation. A radiologist, educator, and advocate for purpose-driven learning, Dr. Green champions self-improvement, along with STEAM and history education. In 2025, she flew to space aboard Blue Origin's New Shepard NS-32 mission, becoming the first commercial woman physician astronaut. Do not miss this remarkable opportunity to hear her story in person.
